

# Smokeless Stoves

[www.brightercommunities.org](http://www.brightercommunities.org)

**Irish NGO working with communities in Kenya and Uganda. In 2018 – 765 household stoves installed, 6 institutional stoves and 36 new installers trained**

Our programme uses locally available, affordable materials – mud, bricks, saw dust, water - and a tin chimney to create a smoke free cooking environment in homes and schools.

- Community Health Volunteers trained as installers
- Burns 1/3 less wood than open fire

Siret Secondary school kitchen

- Reducing respiratory illness & burns
- Reduces school fuel costs
